

CD ROM User Guide

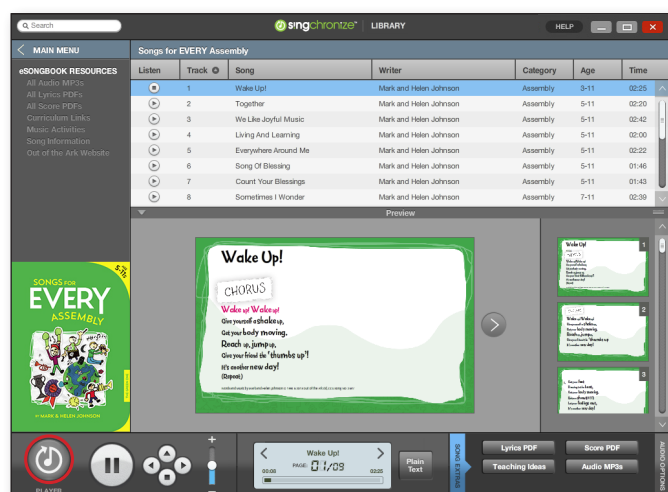

This user guide will help you to get the most from the features on your CD ROM. You can play these songs directly from the disc or alternatively, for best performance, you can install the songs on to a PC or Mac.

IMPORTANT

Your player has two distinct VIEWS

Toggle between the two views using the round button on the bottom left of the player (circled in red below).

LIBRARY VIEW

IDEAL FOR PREPARATION

The **Library** View allows you to store, explore and see more of what's available for each song. It's the place where you can get fully equipped, inspired and organised.

See pages 2-4 for more info

PLAYER VIEW

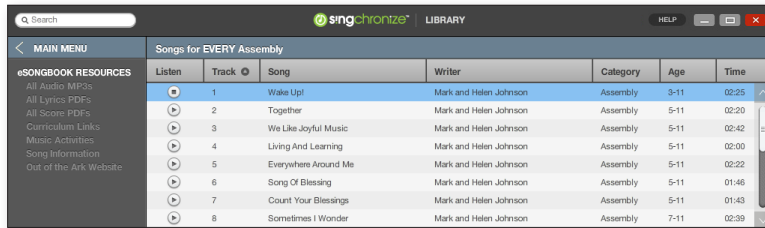

FOR LEARNING & PERFORMANCE

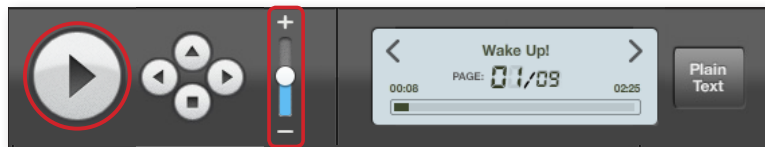

The **Player** View projects the lyrics for use with your interactive display or large screen, perfect for groups and classes.

See pages 5 & 6 for more info

LIBRARY VIEW features

Listen	Track	Song	Writer	Category	Age	Time

	7	Count Your Blessings	Mark and Helen Johnson	Assembly	5-11	01:43
	8	Sometimes I Wonder	Mark and Helen Johnson	Assembly	7-11	02:39

1 GETTING STARTED

All of the songs on your CD ROM appear in your library.

Select a song by clicking on it. You can now press **PLAY** and enjoy the highlighted song. Adjust the volume using the slider next to the digital display.

NOTE: In Library View you can sort your list of songs by clicking on any of the column headers.

2 PREVIEW WINDOW

This is an ideal feature enabling you to familiarize yourself with a song as part of lesson preparation.

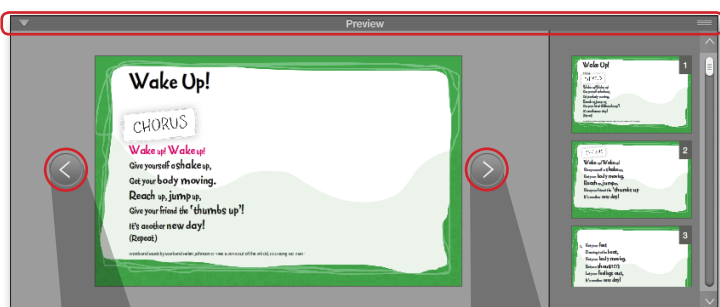

Click on any song in your library and it will appear in the **Preview Window**.

Use these arrows to navigate between pages manually. Alternatively click on the thumbnails to the right.

You can collapse this screen if needed to see your full song list. Click anywhere on the top preview bar to open and close.

NOTE: By clicking the **PLAY** button you can play through the song and the **Preview Window** will show the corresponding section of the song.

Open/collapse the preview window

Navigate between preview pages

3

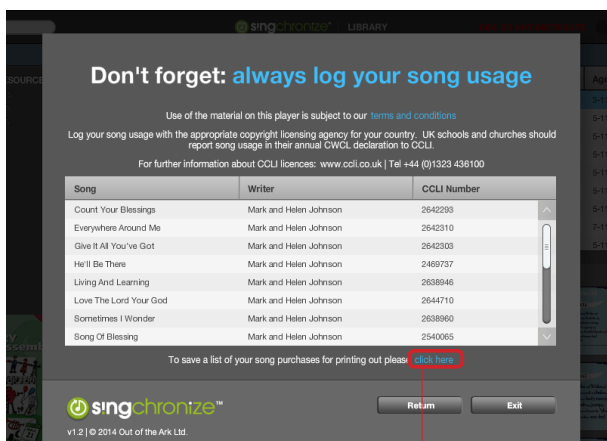

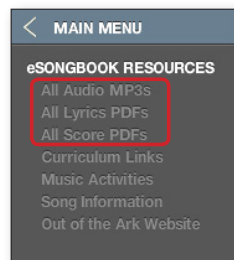

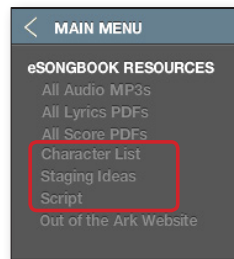

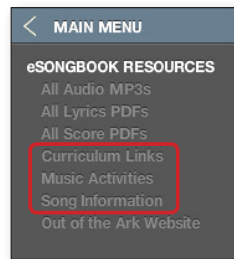

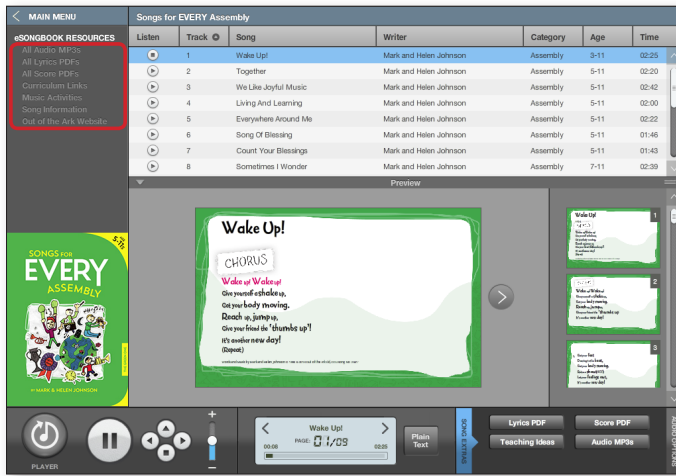

On the bottom right of the screen you will see buttons marked : **SONG EXTRAS** and **AUDIO OPTIONS**.

Click on **Lyrics PDF** for a copy of the words, or **Score PDF** to print the sheet music.

Depending on the product you will also find here teaching ideas, curriculum links and music activities. They're definitely worth checking out for some great creative suggestions and to help you get the most out of the songs!

Click the Audio Options button to switch between the vocal and instrumental versions of a song and to hear harmony tracks, where applicable.

Print song list

4 RESOURCES - FOR THE eSONGBOOK

The eSongbook is where we bring together in one place all of the **digital resources** from one of our Song Collections, Musicals or Nativities. As well as providing resources for each song (see page 3), we also provide resources relevant to the whole eSongbook.

SONG COLLECTIONS

Depending on the product, these may include **Song Information sheets, Curriculum Links, Music Activities and other teaching ideas**. These will be provided as printable PDFs or through links to our website.

MUSICALS AND NATIVITIES

Depending on the product, these may include **Scripts, Cast Lists and Staging Ideas** – everything that we normally provide in a printed book, but in digital format.

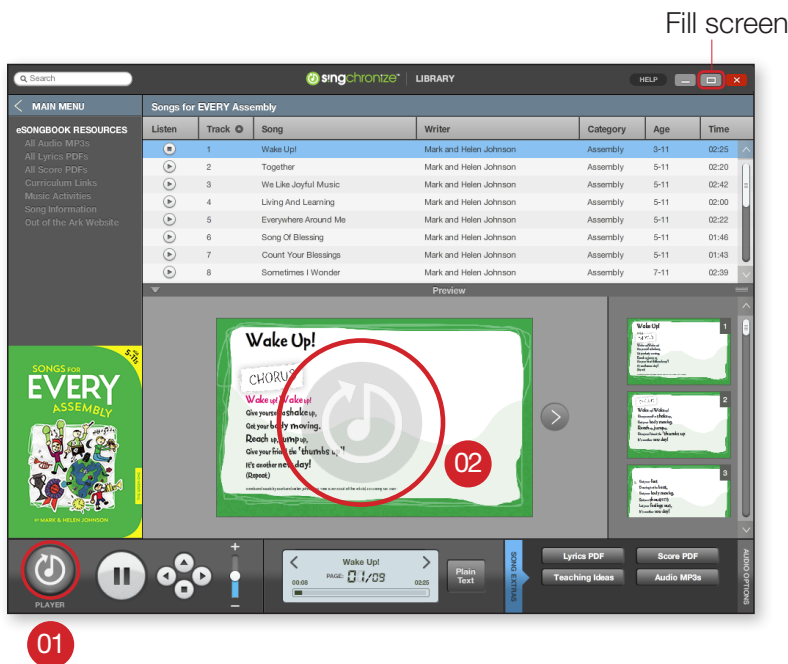

Just click on one of the menu options under eSongbook Resources and follow the instructions.

And if you want to extract and save **All Audio MP3s, All Lyrics PDFs or All Score PDFs** for the whole eSongbook (rather than just individual songs), you can do that here. Just click on the menu option and follow the instructions to save the folder to a chosen location on your computer.

Please check that you are abiding by our Terms and Conditions when using these digital resources. You may require a Digital Site Licence or Performance Licence from us, especially if you are saving to a computer network.

NOTE: You can print a list of your songs for returns to CCLI and other licensing agencies on exit of the application.

PLAYER VIEW features

1 GETTING STARTED

Switch to Player View when you are ready to start using the song with your children. From Library View, you can get to Player View in 2 ways :

01. Click on the **PLAYER** button at the bottom.

02. Click the Singchronize® icon on the preview window (this will appear when you roll over the large Preview Window).

NOTE: You can make your player fill your whole screen by using the 'maximise' button at the top right of the window

2 NAVIGATION

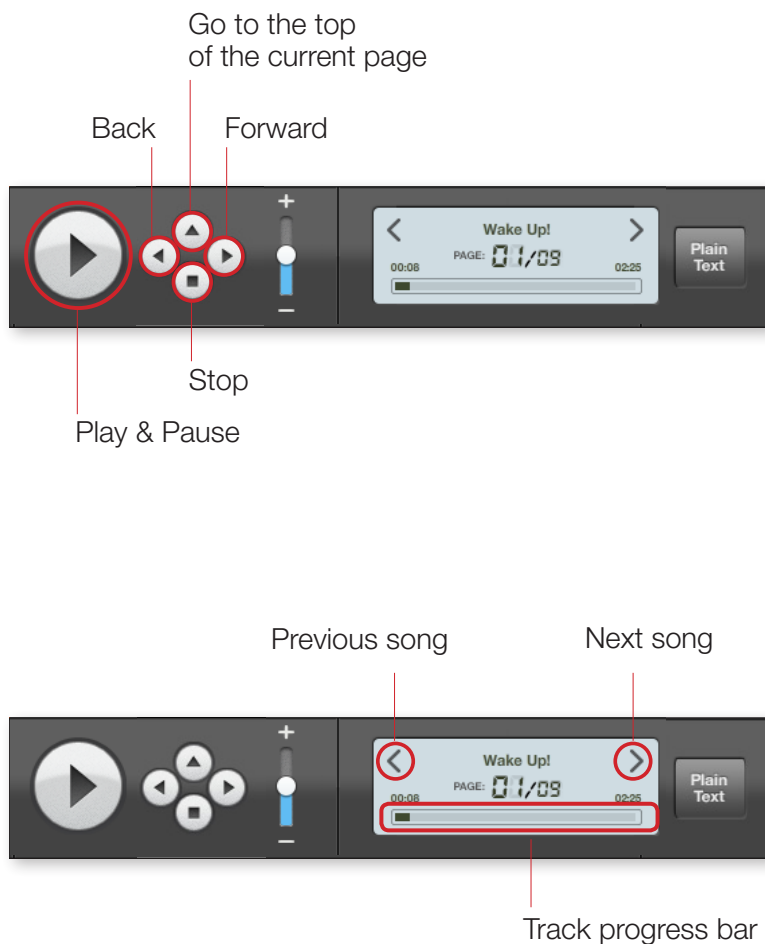

The navigation buttons at the bottom, to the left of the digital display, are all very easy to use.

Press the large **PLAY** button to start and also to **PAUSE** a song. Use the **FORWARD** and **BACK** arrows to navigate between different sections of a song.

NOTE: You can also use the right and left arrow buttons on your keyboard to move through the song pages.

The **UP** arrow starts the song from the beginning of the page that you are on. In **PAUSE** mode, use the arrows to cue a verse or chorus. The **STOP** button will take you back to the beginning.

NOTE: In the display you can jump to any point in the song by clicking along the progress bar. The arrows next to the title can be used to jump to the previous or the next song in your library.

3 FEATURES

All songs contain more than one audio option.

Click on the **Vocal** button to select a version that includes children singing or click the **Instrumental** button to select the backing track.

Some songs include additional audio tracks e.g. for learning harmonies.

You can skip between different tracks as the song is playing.

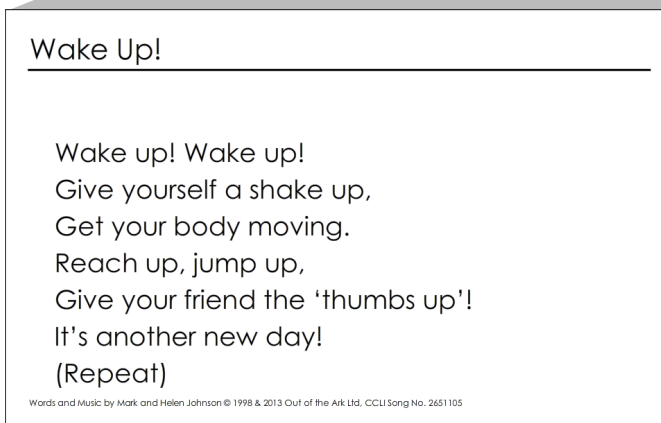

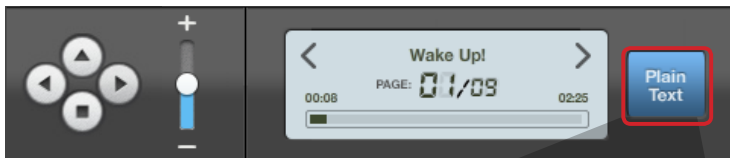

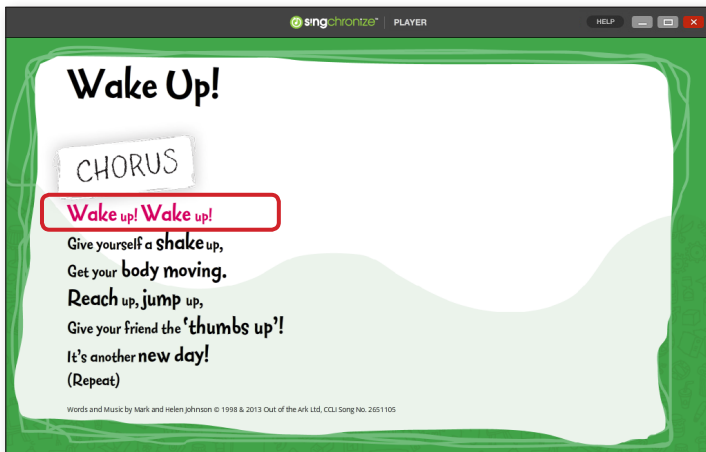

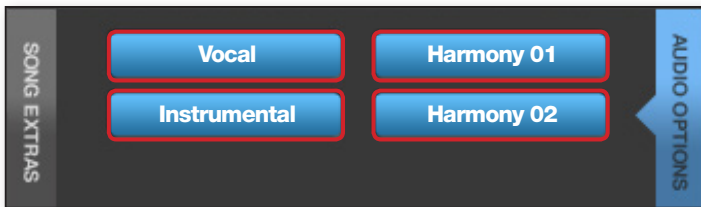

To rehearse specific sections of the song you can **click any line** once for the music to play from that point.

A really great feature that we have incorporated into the song player is the ability to **isolate any line and play it on its own**.

Just double-click the line you want to hear. This is really useful if you have a section that you need to focus on in more detail.

Click the **Plain Text** button to display the lyrics in a plain font. Click it again to revert to the original.

When you have finished either click the close button to exit or click the **LIBRARY** button to take you back to Library View where you can choose a new song.

4 INSTALL PAGES

For best performance, you should install the player and songs on to your computer.

To install the player and songs on to the hard drive of your computer, simply click the Install button on the main menu page.

A window will appear asking you to choose a location to save to. Once you have chosen a location, click **OK** and the installation process will begin.

The next window will show you the installation in progress. This will take a couple of minutes. When it is finished, 'The product is now installed!' screen will appear.

You can continue to run your player from the disc if you wish. However if you would like to play your songs from your hard drive, please exit the program and eject the CD ROM before running the installed program.

Your installed product can be found inside the product folder in the location you chose to save this to. Open the product folder and simply double-click on the  Singchronize application icon to begin.

Please keep all the items together inside the product folder in order for the program to run correctly.
